

Volunteer clearance by AAA LiveScan will be available at Grace on Rev Up for School Day.

Take a few minutes now to be ready to volunteer through 8th grade.

VOLUNTEERING AT GRACE

AAA LiveScan and Volunteering on Campus at Grace Christian

Grace Christian School is a Closed Campus. That means we monitor who is on our campus at all times. In this way, we have the highest standard of safety for all of our students and staff.

While you and any family member are welcome to visit, we ask that all persons volunteering on campus have a background check through AAA LiveScan. This scan is required for volunteering to work with students on campus, attending field trips, or driving children to an event.

You only need be scanned once as this scan is good as long as your child attends Grace, including preschool through elementary and middle school. Typically, it entails requesting an AAA LiveScan form from the school office, filling in the form and taking it to AAA LiveScan for a five minute fingerprint scan. You would then pay an inexpensive fee and bring the form back to Grace so you may be placed on our approved volunteer list. **For your convenience, AAA LiveScan will be at our Rev Up for School Day and on this day only will charge \$21.00.** (Exact cash or check please)

Unfortunately, having previous background checks by any scan company including AAA LiveScan from another school or business **does not** place you on our approved volunteer list as we will not receive alerts from them if the scan is not performed under Grace's account.

PLEASE NOTE: If you volunteer to drive children off campus for any activity, you must be AAA LiveScanned **and** have a current copy of your license and insurance on file in the school office. Because these copies are destroyed during the summer, why not bring these two for us to copy at Rev Up for School Day so you are covered for the entire year?

Thank you so much for making Grace a safe place for all.

In His service and yours,

Grace Administrative Staff
